beating her last passage down here by eight hours.

Two thousand tons of hay and grain for fodder are heaped high on the vessel's decks, her crew consists of 42 men.

MISSION OF GENERAL BATES

Washington, July 13.—The mission of General Bates to the Sulu archipelago for a conference with the Sultan is of considerable importacce as bearing on the future policy of the United States. He nudertakes the mission on recommendation of the Peace Commission, which was approved by the President. His object is to arrange with the Sullag for extending American sovereignty over his The Conemaugh sailed from San islands with the understanding ment in the full sense of the word. On board the transport are 273 This is supposed to be indicate of

> Concerning the r port that General Bates will carry \$10,000 of Mexican money as a gift for the Sultan, the authorities are somewont inysterious, but they say that the money is not to be offered him as a bribe.

All they will say officially is that the Spanish Government paid the Seltan artain annuities and General Butes has instructions which confemplate the continuance of the grant, which will be look after the horses under the out of the r venu s. The Solian will retain possession of the pearl fishing and island trade. The European method of paying "hush mone," to barbarians has always been repugnant to Americans, and the coming Coogress may have a good deal to say about the subject should it be disclosed that the administration is using money instead of gues to establish order in any part of the Philippines.
